I enjoy my XM Radio without the edicts of the FCC and the NAB's interference...I pay for the XM services and want them without the meddling of the federal government who is violating the First Amendment rights of XM Radio. The FCC has already meddled in ruining free radio by the influence of radical Christian Fundamentalists.

Leave pay radio alone as this is not going over "free air." If XM traffic and weather is stopped, it will just be the beginning of what they want to stop next on XM...comedy, sports, music; where does it end? Preventing information is what the governments of Communism and Dictatorships are about. It should not be what truly free societies should have to endure. Please stop the NAB'S petition 04-160.

Thank you,
Dr. Mark H. Slater
